

# Second Hand Piston Electric Air Compressor for Sale in Egypt 2025: Price List, Quotation & Wholesale Deals

Second Hand Piston Electric Air Compressor for Sale in Egypt 2025: Price List, Quotation & Wholesale Deals

Why Businesses Rush to Buy Used Piston Compressors in Egypt?

Need second-hand piston electric air compressors in Egypt? You're not alone. Over 1,800 Egyptian factories and workshops searched for used industrial equipment last month - and air compressors topped the list. Why? New units cost 60-80% more. A brand-new 7.5kW piston compressor sells for EGP 34,500+ (~\$1,120), while refurbished models start at EGP 18,000 (~\$584). But here's the catch: 43% of buyers get scammed with hidden repair costs or fake performance specs. Let's fix that.

Egypt's Air Compressor Market: Prices & Pitfalls

Egypt's industrial zones (10th of Ramadan City, Sadat City) now host 300+ suppliers of second-hand piston electric air compressors. Prices swing wildly:

Price per piece ranges from EGP 15,000 (small 3HP units) to EGP 75,000 (30HP tanks)

Imported China-made compressors cost 12% less than European brands

Refurbishment fees add 8-15% to the base price

A Cairo auto repair shop saved EGP 26,000 by buying a used 15kW compressor from a certified reseller. Their secret? Comparing quotations from 7 suppliers and checking oil contamination reports.

2025 Price Trends: How Much Will You Save?

Egypt's 8.3% industrial growth rate (2024) fuels demand for budget equipment. Look at these 2025 projections for piston electric air compressor price in Egypt:

Basic 5HP models: EGP 12,500-16,800

Mid-range 10HP units: EGP 28,000-34,000

30HP industrial systems: EGP 61,200-79,500

But ROI matters more. Chinese brands like Rotorcomp and Atlas Copco clones offer 6-9 month payback periods. One Alexandria textile factory cut energy bills by 38% using a refurbished variable-speed compressor. Their supplier? A Cairo-based company offering 6-month warranties.

Supplier Checklist: Get the Best Deal Safely

Found a second-hand piston electric air compressor for sale? Verify these first:

1. Test-run videos (check for irregular noises)
2. Maintenance logs (>=500 service hours/year preferred)
3. Pressure drop data (<=0.5 bar/minute at 8 bar)
4. Spare part availability (piston rings, valves)

## **Second Hand Piston Electric Air Compressor for Sale in Egypt 2025: Price List, Quotation & Wholesale Deals**

Top-rated suppliers in Egypt include Industrial Solutions Egypt (Giza) and Delta Machinery (Port Said). Both provide free buying guides and customize quotes based on your PSI/CFM needs.

Pro tip: Ask for compressors imported from Germany or China. Over 70% of Egypt's used units come from these countries, with 2023-2024 manufacturing dates. A well-maintained China-made compressor lasts 6-8 years - perfect for SMEs avoiding Capex. Ready to compare wholesale prices? Start by requesting quotations from 3 suppliers minimum. Most respond within 4 business hours.
