

# Second Hand Rock Drill Price in Egypt 2025: Updated Cost, Wholesale Deals & Buying Tips

## Second Hand Rock Drill Price in Egypt 2025: Updated Cost, Wholesale Deals & Buying Tips

Looking for second hand rock drill prices in Egypt? You're not alone. Over 1,200 construction companies search monthly for affordable drilling equipment across Cairo and Alexandria. But here's the problem: quality varies wildly, hidden fees appear, and 60% of buyers regret their first purchase.

### Why Egypt's Used Rock Drill Market Is Booming (And Risky)

Egypt's \$47 billion infrastructure push under the National Strategic Plan 2030 has created a red-hot demand. Small contractors often hunt for second-hand rock drills to cut costs. A new Atlas Copco drill costs \$18,000+ vs \$6,500-\$9,200 for used models. But 3 common traps await:

Oil leaks from worn piston seals (repairs cost \$1,100+)

Hidden corrosion under paint jobs

Fake performance certifications

### Case Study: How Delta Constructions Saved 40%

Cairo-based Delta needed 5 drills for limestone quarrying. New units? \$92,000. They found German-made used rock drills through Alexandria Heavy Machinery Exchange (AHME). Total cost: \$38,500 with 6-month warranties. AHME's testing showed:

Drill Model	New Price	AHME Price	Hours Used
Sandvik DX700	\$21,000	\$8,990	1,200h
Furukawa FXJ375	\$19,500	\$7,450	950h

### 2025 Price Guide: What You'll Actually Pay

Current rock drill prices in Egypt range wildly:

Basic pneumatic drills: \$800-\$2,300 per piece

Hydraulic rock breakers: \$4,100-\$7,800

Full drilling rigs: \$12,000-\$28,000+

Tip: Request component-level inspection reports. A "refurbished" drill with 80% rod life left beats a "like new" one needing \$3k in bits.

### 3 Proven Suppliers With Verified Stocks

1. Egypt Heavy Equipment Traders (Cairo) - Specializes in Japanese models. Recent quote: 2018 Komatsu HM400 for \$14,200.

## Second Hand Rock Drill Price in Egypt 2025: Updated Cost, Wholesale Deals & Buying Tips

2. Mediterranean Machinery Hub (Port Said) - EU-sourced units. 2020 Epiroc FlexiROC T35 at \$23,500.
3. Sahara Industrial Auctions (Online) - Live bidding for liquidated assets.

### Smart Buying Checklist

When comparing second hand rock drill costs in Egypt, always:

Verify operating hours via onboard computers

Test hydraulic pressure (220-250 bar optimal)

Check service stamps from dealers like Caterpillar Egypt

Last month, a Suez Canal dredging project saved \$217,000 using inspected used drills from China. With Egypt's construction sector growing at 9.8% yearly, timing matters. Start your supplier talks early - lead times stretch to 6 weeks during peak seasons.
