

Second Hand Rock Drill Price in Pakistan 2024: Best Deals, Quotation & Buying Guide

Second Hand Rock Drill Price in Pakistan 2024: Best Deals, Quotation & Buying Guide

Looking for second hand rock drill price in Pakistan? With construction projects booming nationwide - especially roadworks and mining - contractors are scrambling for affordable equipment. A used rock drill could save you 40-60% versus new models. But where to find reliable deals, and how to avoid overpaying? Let's break down the latest market data, hidden costs, and trusted suppliers.

Why Buy a Second Hand Rock Drill in Pakistan?

Pakistan's construction sector grew 7% in 2023 (State Bank of Pakistan). Yet new equipment prices climbed 22% due to rupee depreciation. That's why smart buyers like Karachi-based Frontier Builders Ltd. switched to refurbished drills. They bought 3 used Chinese-made rock drills at PKR 280,000 per piece, saving PKR 1.2 million upfront. "The ROI came in 8 months," says site manager Arslan Ahmed.

The Hidden Costs Nobody Talks About

Beware of cheap listings! A PKR 180,000 "bargain" drill often needs:

- PKR 25,000+ for hydraulic repairs
- 3-week downtime waiting for parts
- No warranty coverage

Quality refurbished units from Germany or China cost PKR 250,000-420,000 but include 6-month warranties. Always ask for:

- Service history logs
- Pressure test reports
- Supplier return policies

2024 Price List: What to Expect

Current second hand rock drill prices in Pakistan vary by brand and power:

- Chinese models (Haryali, HYTORC): PKR 220K-350K
- Japanese/Korean (Atlas Copco, Sandvik): PKR 400K-600K
- European (Montabert, Furukawa): PKR 550K-800K

Tip: Lahore's Badar Market has 12+ certified dealers offering free quotations. Compare at least 3 suppliers - prices fluctuate weekly!

How to Spot a Scam (Real Case Study)

Second Hand Rock Drill Price in Pakistan 2024: Best Deals, Quotation & Buying Guide

In January 2024, Islamabad's Metro Tunnels Project almost bought 4 "like-new" drills from an online seller. Red flags:

- No physical inspection allowed
- Demanded 100% prepayment
- Used stock photos

They later found the same drills at Punjab Heavy Machinery for PKR 1.02 million total - saving PKR 240K vs the scam offer!

Where to Get Wholesale Deals

Bulk buyers (5+ units) can negotiate 10-15% discounts. Top suppliers:

- Al-Habib Machinery (Karachi): Specializes in Japanese refurbished drills
- China-Pak Heavy (Rawalpindi): Direct imports from Shanghai

Pro tip: Time your purchase between September-November when dealers clear inventory before new shipments arrive.

Final Word: Check These Before Paying

Always verify:

- Piston wear (max 0.5mm tolerance)
- Air pressure consistency (9-12 bar)
- Oil leakage history
