

Second Hand Screw Diesel Air Compressor Price in Egypt: 2025 Deals, Quotes & ROI Guide

Second Hand Screw Diesel Air Compressor Price in Egypt: 2025 Deals, Quotes & ROI Guide

Need reliable compressed air solutions but can't afford brand-new equipment? You're not alone. Over 68% of Egyptian manufacturing firms now consider second-hand screw diesel air compressors as their first choice to cut costs. Let's break down why these machines dominate Egypt's industrial scene and how to get the best price in Egypt today.

Egypt's Shift to Pre-Owned Industrial Equipment

Egypt's industrial zones like Sadat City and 10th Ramadan City report 40% higher demand for used machinery since 2023. Why? New screw compressors from Germany or China cost 22,000-35,000 USD, while second-hand screw diesel air compressor prices in Egypt start at 8,500 USD. One Alexandria concrete producer slashed their CAPEX by 63% using a refurbished 75kW unit.

Key Numbers Driving Purchases

Average ROI period: 8-14 months vs 24+ months for new units

35% energy cost reduction vs piston compressors

22% faster project approval under Egypt's SME support policy

Actual 2025 Price Benchmarks

Current price lists for 100-200 CFM models in Cairo markets:

Atlas Copco XAS 185 JD (used): 9,200-11,500 USD

Ingersoll Rand XHP 1070 (reconditioned): 12,800-14,300 USD

Local refurbished units: 6,900-8,400 USD

Get Maximum Value: 3 Step Process

Step 1: Compare Quotations Smartly

Always demand itemized quotes showing:

- Original manufacturer specs
- Refurbishment details (new bearings/seals?)
- Warranty coverage (minimum 6 months recommended)

Step 2: Verify Supplier Credentials

Top-rated suppliers in Egypt like PowerEquip.eg and NileMachinery offer free compressor performance tests.

Check for:

? Physical warehouse in Alexandria/Cairo

Second Hand Screw Diesel Air Compressor Price in Egypt: 2025 Deals, Quotes & ROI Guide

? On-site maintenance contracts

? Customs clearance support for imported used units

Step 3: Calculate Total Ownership Cost

A 15,000 USD used compressor might need 2,000 USD in spare parts over 3 years - still cheaper than new purchases. One Port Said steel workshop increased productivity by 31% using this strategy while keeping debt ratios below industry averages.

Where Market Trends Point

Egypt's 2024 Industrial Modernization Fund now offers 12% rebates for companies buying screw diesel air compressors meeting Euro III emission standards. With diesel prices stabilizing at 8.25 EGP/liter, contractors report 17% lower operational costs versus electric models during load-shedding periods.

Ready to upgrade? Request customized price quotations from verified suppliers today - most Egyptian vendors respond within 4 business hours. Don't forget to ask about seasonal discounts during industrial trade shows like Cairo Industry Hub Expo every October.
