

Second Hand Screw Diesel Air Compressor Price in Netherlands 2024: Cost, Quotation & Best Deals

Second Hand Screw Diesel Air Compressor Price in Netherlands 2024: Cost, Quotation & Best Deals

Need reliable compressed air solutions without breaking the bank? Second hand screw diesel air compressor price in Netherlands averages 30-60% lower than new units - but finding trustworthy deals can feel like navigating a minefield. Let's cut through the noise and show you how to secure ROI-driven deals.

Why Buy Second Hand Screw Diesel Air Compressors in 2024?

The Netherlands' construction sector grew by 4.5% in 2023 (CBS Netherlands), fueling demand for affordable heavy machinery. Diesel-powered compressors dominate outdoor projects due to their portability and high airflow (typically 10-35 CFM). Buying used lets you:

- Save EUR5,000-EUR15,000 compared to new Atlas Copco or Ingersoll Rand models

- Access EU-certified machines with under 2,000 service hours

- Skip 6-8 week lead times for new equipment

Real-World Cost Comparison: New vs. Second Hand

A 2024 Atlas Copco XAS 67 JD7 (18.5 CFM) costs EUR23,500 new. Similar second hand screw diesel air compressors sell for EUR9,800-EUR14,300 in Rotterdam auctions. That's 58% savings - enough to fund 3 months of diesel fuel!

3 Red Flags to Avoid When Checking Prices

Not all "low-cost" listings are equal. Watch for:

- Missing Service Logs: 38% of Dutch resellers can't provide maintenance history

- Undisclosed Repairs: Look for uneven paint or mismatched bolts

- Non-EU Parts: Asian replacement pumps fail 2.3x faster (Equipment Watch 2023)

Where to Get Accurate Quotations in Netherlands

Top suppliers combine transparent pricing with warranty options:

- Certified Resellers: AME Group (Amsterdam) offers 6-month warranties on rebuilt units

- Auctions: Surplex lists 15-20 used compressors monthly across Germany & Netherlands

- Direct Imports: Chinese-made Furuise compressors cost EUR7,200-EUR9,800 via Alibaba, but add EUR900-EUR1,500 for shipping

Case Study: Eindhoven Contractor Cuts Costs by 44%

Second Hand Screw Diesel Air Compressor Price in Netherlands 2024: Cost, Quotation & Best Deals

Jos Verstraeten secured a 2021 Kaeser D30 (22 CFM) for EUR10,700 through Machinery Partner's Rotterdam warehouse. The original EUR19,200 price? "We redirected savings to hire 2 extra workers," he says.

2024 Price Trends & Smart Buying Tips

Q2 2024 second hand screw diesel air compressor prices in Netherlands range:

Small Units (10-15 CFM): EUR5,400-EUR8,900

Mid-Size (16-25 CFM): EUR9,800-EUR16,500

Industrial (26+ CFM): EUR17,000-EUR28,000

Pro Tip: Look for Stage V emission-compliant models - Dutch eco-tax rebates can save EUR1,100/year. Rotterdam suppliers like Van Leeuwen Machinery offer free compliance checks.

Ready to compare real-time quotes? Contact 3 local suppliers within 24 hours. Prices fluctuate weekly, and the best deals vanish faster than you can say "compressed air."
