

Second Hand Stationary Air Compressor for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

Second Hand Stationary Air Compressor for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

Looking for second-hand stationary air compressor prices in Sweden? You're not alone. Over 65% of Swedish workshops now consider used industrial equipment to cut costs - and stationary compressors top their shopping lists. Let's break down real market prices, trusted suppliers, and smart buying strategies to help you secure the best deal.

Why Prices Vary: Key Factors in Sweden's Market

A used stationary air compressor costs between 15,000 SEK to 85,000 SEK in Sweden - but why such a wide range? Three elements decide your final price:

Age & Hours: A 2019 Atlas Copco GA75 (5,000 hours) sells for 55,000 SEK, while 2015 models with 12,000+ hours drop to 35,000 SEK

Brand Value: German-made Kaeser units hold 22% more resale value than Chinese alternatives

Supplier Type: Authorized dealers charge 10-15% more but offer 6-month warranties versus private sellers

Sweden's Hidden Supply Network

While local ads show limited options, Sweden's industrial hubs hide goldmines. Gothenburg's port handles refurbished air compressors from Germany's factory closures - like 30 Bauer KOMPTECH units arriving monthly at 18% below EU averages. Malmo's auctions move 70+ units quarterly, with April 2024 prices hitting a 3-year low at 19,800 SEK for 7.5kW models.

2024 Buying Guide: Get Quotes & Avoid Cost Traps

Follow this proven process to secure reliable stationary air compressor deals in Sweden:

Verify oil-free operation certificates for food/pharma use

Compare energy ratings - a Class 1 unit saves 2400 SEK/year in power

Request live video inspections from Stockholm-based suppliers like Airtech Sweden AB

Case Study: Vaxjo Factory's 42% Cost Cut

A wood processing plant replaced three failing compressors with second-hand stationary models from Hamburg-based vendor GreenAir. Total cost: 182,000 SEK (vs 310,000 SEK for new units). After 18 months, their ROI hit 87% through reduced downtime and energy bills.

How to Lock Down Wholesale Deals

Need multiple units? Sweden's group purchase trends reveal:

Second Hand Stationary Air Compressor for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

Buying 5+ compressors from Poland's ResaleTech slashes per-unit costs by 30%

Pre-2017 models work best for non-continuous operations - ideal for seasonal businesses

Container shipping from China costs 9,000 SEK but adds 4-week lead times

As Sweden phases out fossil-fuel compressors by 2030, certified electric models now dominate 78% of second-hand sales. Got your eye on a 2022 Ingersoll Rand SS5? Check three authorized resellers first - last month's quotes ranged from 48,900 SEK to 62,300 SEK for identical specs. Ready to crunch numbers?
